Spring 2017

### *Research Assistantship*

Department of Economics and School of Nursing, University of Wisconsin - Milwaukee

Assessed the impact of the PERISCOPE perinatal health intervention using claims data from Medicaid and private insurance providers in Wisconsin.

## **Research Papers**

### **Job Market Paper**

*"The Emerging College Hours Premium for Men"*

*This paper uniquely documents the emerging role of education in the well known decline in U.S. male working hours. An insignificant hours difference between high school and college graduates becomes a highly significant 2 hours/week advantage for college graduates within a generation. This growing college hours premium is confirmed in alternate data over a longer time period. Moreover, the premium exists throughout the hours distribution and is not generated by the tails. The emerging college hours premium increases the overall college earnings premium independent of changes in the college wage premium.*

### **Working Papers**

*"The Returns to Drinking: Workers or Jobs?" with SJ Adams, JS Heywood & D Ullman*

*"Are the Returns to Education Still Rising?"*

*"Changes in the Returns to Education : Evidence from Three Cohorts of the NLSY"*

### **In Progress**

*"Estimating the Effects of the Periscope Project" with SJ Adams & JJ Doering*

*"Changes in education's effect on job sorting"*

## **Presentations**

*"Changes in the returns to education : Evidence from 3 cohorts of the NLSY"*
